CRIME IN SOUTH CAROLINA

1987

Released by South Carolina Law Enforcement Division

SOUTH CAROLINA LAW ENFORCEMENT DIVISION

CARROLL A. CAMPBELL, JR.
Governor

ROBERT M. STEWART
Chief

4400 Broad River Road (J.P. Strom Boulevard) • Mail: P.O. Box 21398
Columbia, South Carolina 29221-1398 • Phone: 803/737-9000

May 1, 1988

The 1987 edition of Crime in South Carolina provides a great deal of information useful to law enforcement, government, and the public. I would like to thank those law enforcement professionals at the municipal, county, and state levels, without whose cooperation and assistance this book would not be possible.

Robert M. Stewart, Chief
State Law Enforcement Division

BACKGROUND OF UNIFORM CRIME REPORTING

NATIONAL UCR PROGRAM

Development of the current nationwide Uniform Crime Reporting (UCR) Program began over fifty years ago. In 1930, crime counts were first requested from local police departments with the Federal Bureau of Investigation (FBI) designated by Congress to collect, compile, and analyze the statistics. The Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP) played a primary role in the origin and development of UCR and today serves in a strong advisory capacity. Standardized offense classification and counting procedures developed by the IACP are the basis for the UCR program. The National Sheriffs' Association (NSA) also serves in an advisory role to the national program. The publication, Crime in the United States, is the annual report published by the FBI dealing with national crime statistics.

In recent years the FBI has actively assisted states in the development of state level UCR programs compatible with the national system.

SOUTH CAROLINA UCR PROGRAM

South Carolina was one of the first states to implement an operational state UCR program. The South Carolina Law Enforcement Division is the agency administering the program. The information collected and the uniform classification under which it is collected are based directly upon the guidelines developed by the IACP and FBI.

Upon initiation of the South Carolina UCR program in July, 1973, SLED, in conjunction with the FBI, held workshops around the state to instruct or refresh the county and city law enforcement agencies on the scope of the program and the mechanics of completing the forms.

Since that time, SLED, along with the local law enforcement agencies, has instituted an incident-based records management system which has greatly enhanced and improved the quality of information gathered under the Uniform Crime Reports system. Under this new procedure crime data and other information gathered by municipal and county law enforcement agencies are collected and submitted to SLED on a daily, monthly and annual basis. This new system lends itself to a more complete and accurate crime reporting system which, in most instances, alleviates some of the paperwork with which many departments have been burdened. An additional advantage of using standard incident and booking reports has been realized from the uniformity of documents. Standardized reports facilitate the exchange of information between law enforcement agencies within the state. The forms have been included in the report writing classes taught at the South Carolina Criminal Justice Academy.

OBJECTIVES

The fundamental objectives of the South Carolina Uniform Crime Reporting Program are:

- (1) To inform the governor, legislature, other governmental officials and the public as to the nature of the crime problem in South Carolina.
- (2) To provide law enforcement administrators with criminal statistics for administrative and operational use.
- (3) To determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement.
- (4) To provide base data and statistics to help measure the workload and effectiveness of the criminal justice system.
- (5) To provide base data for research to improve the efficiency, effectiveness and performance of criminal justice agencies.

A particularly important goal of the state UCR program is to return statistical information to the contributors. With implementation of the new incident reporting system, participating police agencies furnish data that are verified and then returned to each jurisdiction in the form of monthly printouts. Contributing agencies then possess detailed information showing crime trends within their jurisdictions. The information enables them to make decisions in budgeting, manpower allocations and the identification of high crime areas.

This information is also forwarded by SLED to the FBI on a monthly basis for inclusion in the FBI's annual UCR publication.

REPORTING AND CLASSIFICATION

In reporting offenses to the Uniform Crime Reports program, crimes are classified according to standard definitions (given in a later section of the report) that are used throughout the nation. The UCR definitions are designed to insure that offenses with different titles under the laws of the various states are appropriately classified and counted under the UCR program without regard to findings of courts or juries, since the statistics are gathered primarily to assist in identifying areas of concern to law enforcement officers, and not meant to reflect the outcomes of inquests, hearings or trials.

CRIME FACTORS

The presence of crime in our state's communities is a serious concern not only of the law enforcement profession but of society at large. Historically, the causes and origins of crime have been the subjects of investigations by many disciplines. However, no definitive conclusions have yet been reached. Instead, a number of factors affecting the volume and type of crime that occurs from place to place have been delineated. Some of these are as follows.

Density and size of community population and its surrounding area.

Variations in composition of the population, particularly age structure.

Stability of population with respect to transient factors.

Economic conditions, including job availability.

Cultural conditions, such as educational, recreational, and religious characteristics.

Climate.

Effective strength of law enforcement agencies.
Administrative and investigative emphasis of law enforcement.
Policies of other components of the criminal justice system
(i.e., prosecutorial, judicial, correctional and probational).
Attitudes of citizenry toward crime.
Crime reporting practices of citizenry.

These and other crime influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Police cannot shoulder the entire burden of fighting crime. The same is true of the courts, correction agencies, and any other elements of the criminal justice system. Real progress against crime can be attained only when each individual recognizes that crime prevention is his personal responsibility and acts accordingly.

SOUTH CAROLINA CRIME INDEX

The tabulation presented in the tables, graphs, and charts in this publication indicate the volume, fluctuation, and distribution of crime in South Carolina on the basis of a crime index. The crime figures are categorized by agency, county and state on the basis of information submitted by police agencies from these areas. The seven offenses comprising the crime index are:

- | | | | |
|-----------|-----------------|-------------------------|---------------------|
| 1. Murder | 3. Robbery | 5. Breaking or Entering | 7. Motor Veh. Theft |
| 2. Rape | 4. Agg. Assault | 6. Larceny | |

Definitions of these seven offenses can be found elsewhere in this book under their separate headings.

The crime index is used as a basic measure of crime. The crimes were selected for use as an index on the basis of their serious nature, their frequency of occurrence and the reliability of reporting from citizens to law enforcement agencies. The offenses of murder, rape, robbery and aggravated assault are categorized as violent crimes. Offenses of breaking or entering, larceny and motor vehicle theft are classed as nonviolent crimes. The crime index is the total of these offenses that come to the attention of law enforcement agencies.

In reviewing crime index figures, the reader should bear in mind that there is currently no way of determining the total number of crimes committed. The crime index has been established to measure only the instances of crime which come to the attention of law enforcement agencies. It is important to remember, in reviewing the tables and graphs in this report, that the volume of crime in a given area or municipality is related to the crime factors previously listed in this report.

CRIME RATES

The crime rate indicates the number of Index Crimes per unit of population, generally per 10,000. It should be noted that the rate only takes into consideration the numerical factor of population and does not incorporate any of the other elements which contribute to the amount of crime in a given

community. The effect of changes in population on rates should be kept in mind when attempting to make a comparison of crime rates.

The population data used in this report are supplied by the State Data Center, Division of Research and Statistical Services. The figures are based upon the latest projected population counts available from the State Data Center, July 1987.

PERCENT CHANGE

The percent changes in the numbers of offenses and arrests from year to year are shown in a number of tables in the publication. The percent change shown after any 1985 figures reflect a comparison to information reported in 1984.

VIOLENT CRIME

Crimes of violence include murder, rape, robbery and aggravated assault. Violent crimes involve the element of personal confrontation between the victim and the offender and, because of their nature, are generally considered to be more serious than nonviolent crimes.

NONVIOLENT CRIME

For UCR purposes, nonviolent crimes include the offenses of breaking or entering, larceny, and motor vehicle theft. While these offenses generally do not involve personal danger to the victim, the value of property lost in these crimes is many times greater than in violent crimes.

ARSON

The offense of arson, defined for UCR purposes as any willful and malicious burning of any type of property, is included in this report. It has not been included in any trend data.

PERCENT ROUNDING

Percentages shown in this publication may not add to 100 due to gross rounding (usually shown to the nearest tenth).

UPDATED DATA

Any data published here concerning figures for prior years supersede those in previous reports.

**SOUTH CAROLINA
CRIME CLOCK
1987**

one

every 11 minutes

one
LARCENY
every 5 minutes

one
MOTOR VEHICLE THEFT
every 55 minutes

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of the Part I Offenses; rather it represents the annual ratio of crime to fixed time intervals.

1985-1987 INDEX CRIME TRENDS

Offense	1985	1986	1987
Murder	305	291	319
Rape	1,383	1,395	1,487
Robbery	3,143	3,357	3,440
Aggravated Assault	16,274	17,731	17,409
Subtotal Violent	21,106	22,774	22,654
Breaking or Entering	41,925	45,218	46,324
Larceny	90,103	96,004	97,394
Motor Veh. Theft	8,665	9,331	9,581
Subtotal Nonviolent	140,693	150,553	153,300
State Totals	161,799	173,327	175,954

CRIME RATE PER 10,000 POPULATION BY YEAR

Offense	1985	1986	1987
Murder	0.91	0.85	0.91
Rape	4.13	4.08	4.28
Robbery	9.4	9.8	9.9
Aggravated Assault	48.6	51.9	50.1
Subtotal Violent	63.1	66.6	65.2
Breaking or Entering	125.3	132.3	133.5
Larceny	269.2	280.9	280.7
Motor Veh. Theft	25.9	27.3	27.6
Subtotal Nonviolent	420.4	440.5	441.9
State Totals	483.4	507.1	507.2

The following state population totals were used: 1984 -3,300,00, 1985 -3,347,000, 1986 - 3,418,000, 1987 -3,469,000. Statewide figures are rounded to the nearest thousand, whereas the county figures shown on pages 57 through 59 are rounded to the nearest hundred and therefore may not correspond to statewide totals.

1987 INDEX CRIMES BY MONTH

Offense	Jan	Feb	Mar	Apr	May	Jun	Total Jan-Jun

State Totals	16,963	17,070	13,957	14,856	14,444	14,520	91,812

CLEARANCE RATES

For crime reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender and there is enough evidence to charge him, whether or not he is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in clearing one crime. Clearances are recorded in exceptional circumstances when some element beyond law enforcement control precludes formal charges against the offender.

1985-87 CLEARANCE TRENDS

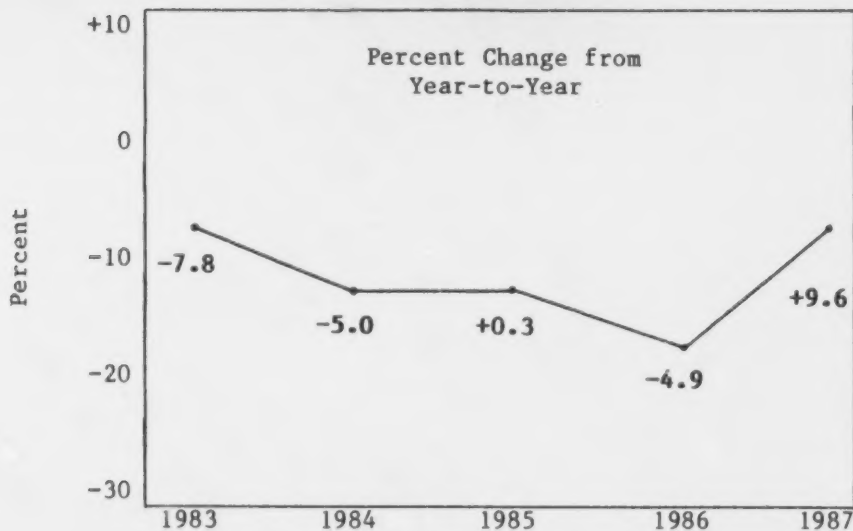

Offense	Year	Number Of Offenses	Total Cleared	% Cleared	No. Cleared* Under Age 18
Murder	1985	306	288	94.1	8
	1986	291	262	90.0	5
	1987	319	288	90.3	8

MURDER

Murder is defined as the willful (non-negligent) killing of one human being by another except those cases classified as justifiable homicides. Under the UCR definition, justifiable homicides are specifically limited to the killing of an offender by a police officer in the line of duty or the killing of a felon by a private citizen. This definition does not take into consideration the findings of coroners' juries or other courts. Suicides are not defined as murders under UCR. Attempts to commit murder are classified as aggravated assaults.

1987 SUMMARY

A total of 319 murders was reported in 1987. During this year, the number of murders increased 9.6 percent compared to those reported in 1986.

There were 288 murders cleared by arrest or exceptionally cleared, amounting to a clearance rate of 90.3 percent statewide.

Murders accounted for 1.4 percent of all violent crimes and 0.2 percent of the total crime index. The murder rate in South Carolina was 0.91 per 10,000 persons.

The age group 30-34 accounted for 18.4 percent of persons arrested for murder. Males represented 79.5 percent of the total arrests made for murder.

Firearms were used in 58.6 percent of the murders, cutting instruments in 20.1 percent, hands and feet in 5.3 percent, and other weapons in 16.0 percent.

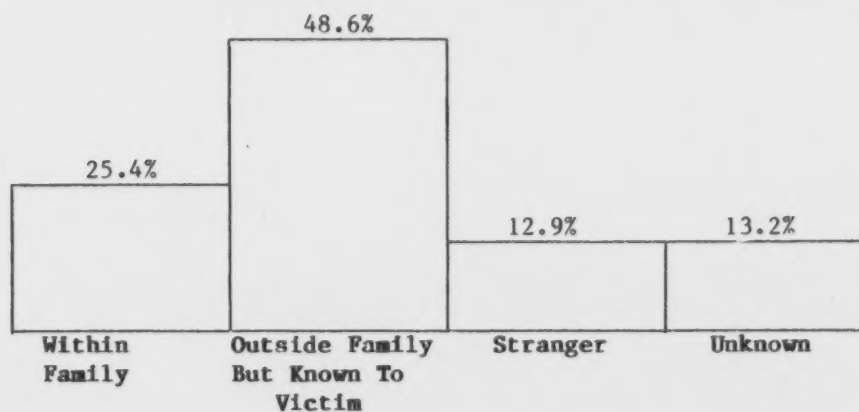

Victims in the age group 25-29 accounted for 16.3 percent of those killed. Victims killed most frequently were black males between the ages of 25-34.

Alcohol was known to have been present in 8.5 of all murders, while drugs were known to have been connected with 3.2.

RAPE

Forcible Rape, by UCR definition, is the carnal knowledge of a female through the use or threat of force. Assaults to rape or attempts to commit rape are included in this category. One offense is counted for each victim of rape. Statutory rapes and other types of sexual assaults are not counted as rapes under the UCR program.

1987 SUMMARY

A total of 1,487 rapes was reported in 1987. During this year, rapes increased 6.6 percent compared to those reported in 1986.

There were 890 rapes cleared by arrest or exceptionally cleared, amounting to a clearance rate of 59.9 percent statewide.

Rapes accounted for 6.6 percent of all violent crime and 0.8 percent of the total crime index.

The number of rapes committed was 4.3 per 10,000 persons statewide. The rate per 10,000 females was 8.4 based on a state female population of 1,775,900.

Of all persons arrested for rape, 46.1 percent were under the age of 25. With respect to race, 35.8 percent were white, 64.2 percent were black.

Dangerous weapons were used in 15.1 percent of all rapes.

Victims in the age group 15-19 accounted for 23.1 percent of persons raped. The relationships of victims to offenders within the family represented 17.1 percent of the total; outside the family but known to the victim, 47.2 percent; strangers, 29.4 percent; and unknown relationships, 6.3 percent.

ROBBERY

Robbery, for UCR purposes, is defined as the unlawful taking of the property of another through the use or threat of force. Robbery is a violent crime in which the element of personal confrontation between the victim and offender is present. Attempts to rob are included in the robbery count. Armed robberies, those involving weapons, and strong-arm robberies, those not involving weapons, make up the two major categories. One robbery is counted for each distinct operation, regardless of the number of victims present at the time.

1987 SUMMARY

A total of 3,440 robberies was reported in 1987. During this year, robberies increased 2.5 percent compared to those reported in 1986.

There were 1,238 robberies cleared by arrest or exceptionally cleared, amounting to a clearance rate of 36.0 percent.

Robberies accounted for 15.2 percent of all violent crimes and 2.0 percent of the total crime index.

The robbery rate in South Carolina was 9.9 per 10,000 persons.

The age group 25-29 accounted for 21.2 percent of persons arrested for robbery, followed by 9.3 percent for 30-34 years old. Males represented 94.1 percent of the total arrests made. Of all persons arrested for robbery, 23.3 percent were white, and 76.7 percent were black.

Firearms were used in 31.9 percent of all robberies, cutting instruments in 12.0 percent, other weapons in 9.0 percent, hands and feet in 47.1 percent.

The greatest number of robberies reported for any premise type occurred on streets and highways, accounting for 32.3 percent of the total.

AGGRAVATED ASSAULT

Aggravated Assault, for UCR purposes, is defined as an unlawful attack by one person upon another with the intent of inflicting serious bodily injury. Aggravated Assaults are frequently accomplished through the use of or threatened use of dangerous weapons. However, assaults resulting in serious injury from the use of hands or feet are also counted in this category. Attempts to assault are counted here since it is not necessary that injury result whenever a dangerous weapon is employed. Attempts to commit murder are classified under this category. One offense is counted for each victim of aggravated assault.

1987 SUMMARY

A total of 17,409 aggravated assaults was reported in 1987. During this year, aggravated assaults decreased 1.8 percent compared to those reported in 1986.

There were 11,100 aggravated assaults cleared by arrest or exceptionally cleared, amounting to a clearance rate of 63.8 percent statewide.

Aggravated assaults accounted for 76.8 percent of all violent crimes and 9.9 percent of the total crime index.

The aggravated assault rate in South Carolina was 50.2 per 10,000 persons.

BREAKING OR ENTERING

Breaking or Entering, for UCR purposes, is defined as the unlawful entry of a structure with intent to commit a felony or theft. It is not necessary that force be used in gaining entry in order for the offense to be classified as an unlawful entry. Neither is it necessary that property loss occur in an unlawful entry or forcible entry for the crime to be counted in this category. Attempts to unlawfully enter a structure are also counted. One offense is counted for each distinct operation.

1987 SUMMARY

A total of 46,324 breaking or entering offenses was reported in 1987. During this year, breaking or entering offenses increased 2.4 percent compared to those reported in 1986.

There were 7,371 breaking or entering offenses cleared by arrest or exceptionally cleared, amounting to a clearance rate of 15.9 percent.

Breaking or entering accounted for 30.1 percent of all nonviolent crimes and 26.3 percent of the total crime index.

The age group of 25-29 accounted for 14.7 percent of persons arrested for breaking or entering. Males represented 93.7 percent of the total arrests made. Of all persons arrested for this offense, 49.1 percent were white, 50.6 percent were black, and 0.4 percent were of other races.

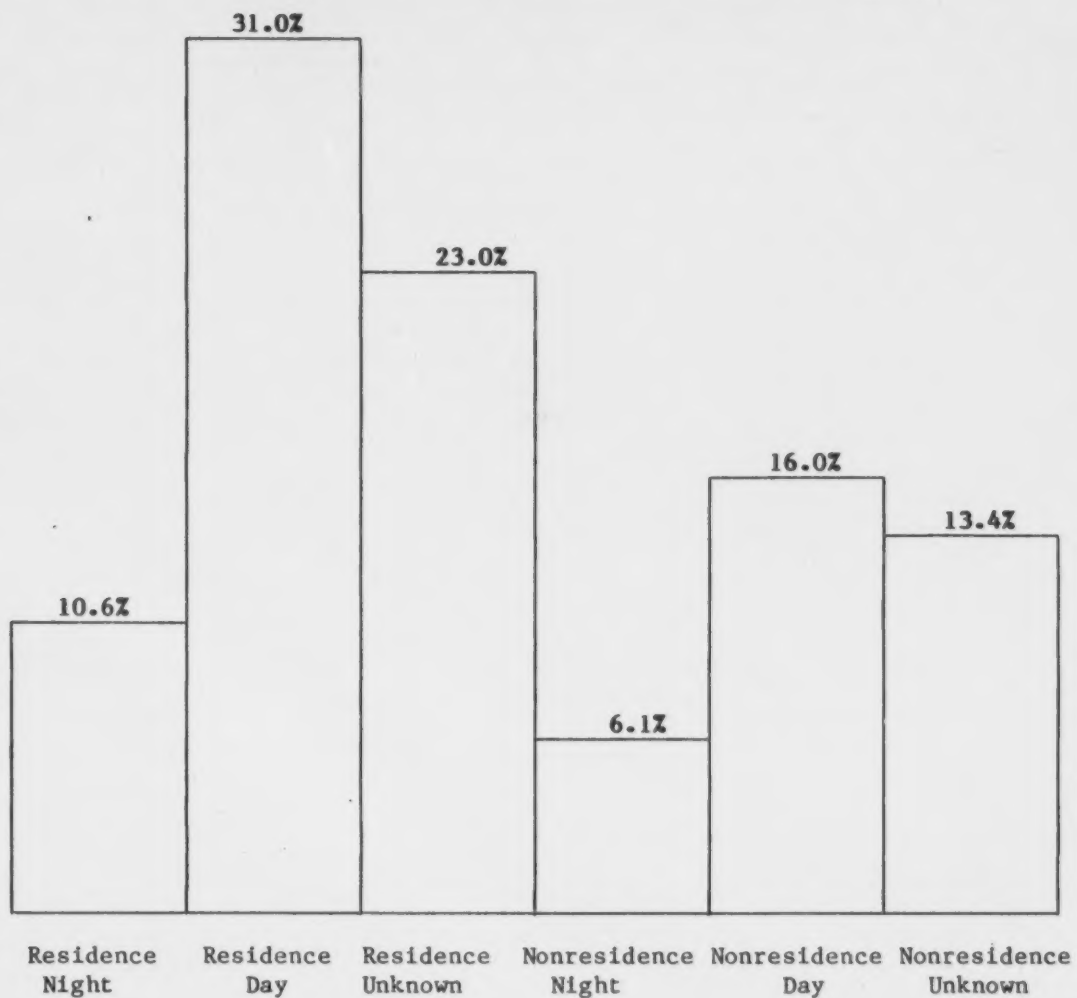

Of the three categories of breaking or entering, forcible entry accounted for 84.2 percent; unlawful entry, 7.0 percent; and attempted forcible entry; 8.7 percent.

Night operations accounted for 16.6 percent of breaking or entering offenses; daytime operations, 47.0 percent; and 36.4 percent occurred at unknown times.

LARCENY

Larceny, for UCR purposes, is defined as the unlawful taking of the property of another without the use of force or fraud. Larceny does not have the element of unlawful entry. This offense category includes such crimes as shoplifting, purse-snatching, stealing items from vehicles and the like. Larceny does not include thefts by fraud, forgery, embezzlement or similar crimes. Motor vehicle thefts fall under a separate category and are not counted as larcenies. Attempts to commit larceny are included in this category. One offense is counted for each distinct operation, regardless of the number of victims.

1987 SUMMARY

A total of 97,394 larcenies was reported in 1987. During this year, larcenies increased 1.4 percent compared to those reported in 1986.

There were 19,796 larcenies cleared by arrest or exceptionally cleared, amounting to a clearance rate of 20.3 percent.

Larcenies accounted for 63.3 percent of all nonviolent crimes and 55.4 percent of the total crime index.

The larceny rate in South Carolina was 280.8 per 10,000 persons.

Persons under the age of 17 accounted for 20.9 percent of those arrested for all categories of larceny. Arrests of males accounted for 70.9 percent of the total.

Thefts of motor vehicle parts, accessories, and contents accounted for 16.6 percent of the larceny category, while shoplifting made up 14.5 percent, thefts of bicycles made up 5.7 percent, and thefts from buildings 6.9 percent.

Individual offenses in which property stolen amounted to \$200 or more accounted for 34.7 percent of all larcenies; those from \$50 to \$200 accounted for 24.9 percent; and those of less than \$50 for 40.3 percent.

MOTOR VEHICLE THEFT

Motor Vehicle theft, for UCR purposes, is defined as the theft of a self-propelled vehicle that runs on the surface of the land but not on rails. Motor vehicles include automobiles, trucks, motorcycles and the like. This category does not include boats, airplanes or specialized items such as farm equipment, tractors, construction equipment, bulldozers, etc. These specialized items are counted under the larceny category. Motor vehicle theft does not include using a vehicle without the owner's consent if prior consent or lawful access has been granted. Obtaining vehicles through fraud or failure to return rented vehicles are not included in this category. Attempts to steal motor vehicles as well as "joyrides" are counted as motor vehicle theft. One offense is counted for each vehicle stolen.

1987 SUMMARY

A total of 9,581 motor vehicle thefts was reported in 1987. During this year, motor vehicle thefts increased 2.7 percent compared to those reported in 1986.

There were 2,161 motor vehicle thefts cleared by arrest or exceptionally cleared, amounting to a clearance rate of 22.6 percent statewide.

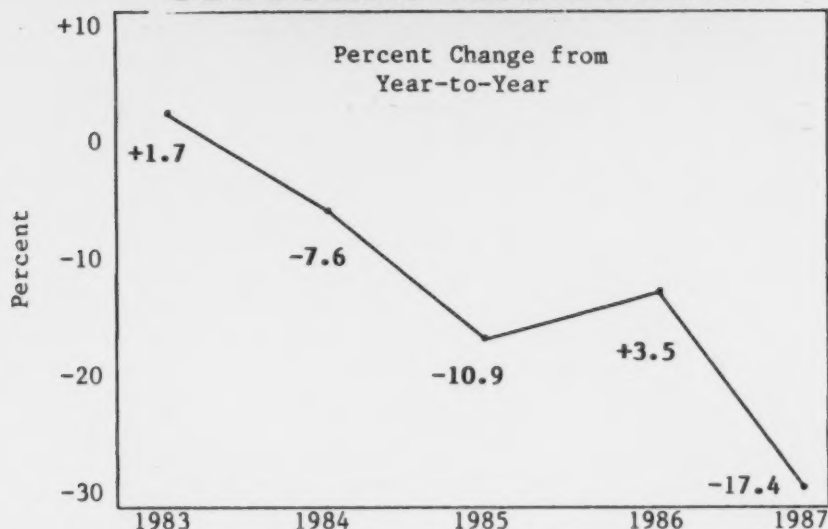

Motor vehicle thefts accounted for 6.2 percent of all nonviolent crimes and 5.4 percent of the total crime index.

Of vehicles originally stolen in South Carolina, there were 5,264 recovered during 1987.

OFFICERS ASSAULTED

During 1987, there were 780 assaults upon law enforcement officers, a decrease of 17.4 percent from those reported during 1986. Of these 34.9 percent occurred while the officers were responding to disturbance calls; 27.3 percent while the officers were attempting to make general arrests; 14.6 percent while making traffic stops; and 5.3 percent while investigating suspicious persons. There were 757 police assaults cleared by arrest or exceptionally cleared, amounting to a clearance rate of 97.1 percent statewide.

Of the 780 officers assaulted, 5.8 percent were assaulted with firearms 5.8 percent with cutting instruments, 8.3 percent with other weapons and 80.1 percent with hands, feet, etc.

Some degree of injury was sustained by 19.1 percent of officers assaulted; 74.5 percent of these injuries were caused by hands, feet, etc.

Of the 780 assaults on officers, 42.3 percent occurred between the hours of 8:00 PM and 2:00 AM.

SOUTH CAROLINA LAW ENFORCEMENT OFFICERS KILLED BY YEAR

During 1987, one South Carolina police officer was willfully killed in the line of duty.

On Saturday, May 2, 1987, at 3:30 P.M., a 41 year old Marion County sheriff's deputy was shot and killed with a shotgun while attempting to serve a warrant on a suspect at a private residence. He had eight years of police experience.

ARRESTS

The Uniform Crime Reports Program requires a daily reporting of data concerning persons arrested in the state. Records of arrests for criminal acts in both Part I and II crime classes are received from state, county and municipal law enforcement agencies in South Carolina and are classified by offense category and arranged according to age, sex and race of persons arrested. Traffic arrests, except driving under the influence, are not reported. A total of 172,754 arrests for Part I and Part II crimes was reported during 1987, a 1.1 percent decrease over 174,650 arrests reported for the year 1986.

A person is counted on the arrest report each time he is arrested or summoned. It should be kept in mind that the volume of arrests may vary from time to time due to differences in local arrest procedures and policies. It should be noted that a person may be arrested several times during a given month for different offenses. This occurs frequently for such crimes as public drunk, disorderly conduct and similar violations. A juvenile is counted as "arrested" when the circumstances are such that, if he or she were an adult, an arrest would be counted, or when law enforcement or other official action is taken beyond a mere interview, warning or admonishment.

When reviewing arrest figures, it should be remembered that arrest counts do not reflect the specific number of persons arrested since, as has been pointed out, one individual may be arrested several times during any given month or year. However, arrest data are useful in measuring the extent of law enforcement activity in a given geographical area, as well as in providing an index for measuring involvement in criminal acts by the age, sex and race of the offenders.

Analysis of reported arrests for the year 1987 indicates that 15.6 percent of arrests during the year were for Part I offenses (murder, manslaughter, forcible rape, robbery, aggravated assault, breaking or entering, larceny, motor vehicle theft, arson). Arrests for larceny comprised the highest percentage of Part I arrests, amounting to 54.5 percent, while arrests for drunkenness comprised 15.9 percent of Part II arrests. Persons arrested for alcohol and drug violations (drug laws, DUI, liquor laws, drunkenness) accounted for 41.7 percent of all arrests made during the calendar year 1987.

INDEX CRIME RATES & AGENCY TOTALS

County crime rates per 10,000 population and index crime counts by county and agency are shown in the two tables of this section. The crime rates in the first table are based upon the latest population counts available from the State Data Center, Division of Research and Statistical Services. County population projections are based upon a State population total of 3,469,000 for 1987.
